# What is NASDAQ 100?

# /// NASDAQ 100- Introduction ///

The NASDAQ-100 Index tracks the performance of 100 largest non-financial companies listed on the NASDAQ Stock Exchange. It serves as a benchmark for innovation-driven sectors such as technology, communications, and consumer services, representing the innovation-driven growth engine of the modern U.S. economy.

## Market Dominance

Represents over 90% of NASDAQ's market capitalization (ex-financials) and is heavily weighted toward technology

## Strong Corporate Governance

It benefits from **transparent governance of US** and rule-based oversight, **unlike certain large emerging markets** where regulatory opacity can be a concern

## Market Cap based Selection

Constituents are selected based on market capitalization and liquidity, reviewed annually by the NASDAQ Index Management Committee

## Wide use case

Used by numerous ETFs and index funds globally, as a proxy for the **U.S. tech sector**. Forms the foundation for trillions of dollars in passive and derivatives-linked investment products worldwide

## Proven History

Established in 1985, making it a nearly 40-year-old benchmark with a robust track record of innovation-led growth

## Industry Standard & Global Foundation

- Rebalanced quarterly to reflect changes in market capitalization and maintain diversification standards.
- Reviewed annually for eligibility and classification under the NASDAQ Global Select Market framework.

# /// NASDAQ 100: Tech Heavy Index ///

## Entry led by size & volumes

Large cap companies (non-financials)

## Innovation led churn, auto-driven index

# Concentrated allocation

## Top 10 constituents of NASDAQ 100

Company	Weight	ICB Sector
Nvidia	9.88%	Technology
Microsoft	8.39%	Technology
Apple	8.24%	Technology
Broadcom	5.59%	Technology
Amazon	5.10%	Consumer Discretionary
Tesla	3.53%	Consumer Discretionary
Meta	3.47%	Telecommunications
Alphabet A class	3.08%	Telecommunications
Alphabet C class	2.88%	Telecommunications
Netflix	2.73%	Telecommunications

## ICB Sector Allocation

# /// Top 25 companies forms 82% of NASDAQ 100 ///

■ Technology ■ Consumer Discretionary ■ Telecommunications ■ Consumer Staples ■ Health Care ■ Basic Materials

# /// S&P 500 vs NASDAQ 100 ///

	S&P 500	NASDAQ 100
	Sectoral balance	Technology
US Mcap coverage	>80%	>40%
Number of companies	500	100
No. of common stocks	86	86
Largest sector & Weight	IT : 33.5%	IT : 64%
Valuation Cyclicality	Valuation moderates during downturns due to diversified coverage including defensive names	More prone to valuation bubbles/crashes (dotcom 2000, AI 2023 surge)
Dividend + Buyback yield (recent)	2.8-3.2%	1.5-2.5%
Geographic revenue split*	US - 65 to 70%; ROW - 30 to 35%	US - 50 to 55%; ROW - 45 to 50%
Profitability gate for entry	Profitable for last 4 quarters	No such requirement
Rebalancing and Reviewing Frequency	No fixed timeline; committee driven ad-hoc rebalancing	Annual reconstitution in December, quarterly rebalancing in March/June/Sept/Dec
Weighting mechanics	Pure free-float market cap weighting; committee Discretion	Uses modified market-cap weighting → caps large stocks (like Apple, Microsoft) to prevent one stock from exceeding ~14% and top 5 from exceeding 40%

\*Geographic Split is calculated on basis of companies which discloses the split, companies not reporting the same is out of calculation universe

# Why Invest in NASDAQ 100?

# /// NASDAQ 100 stocks accounts for ~20% of world market cap ///

Source: CEIC data, Wikipedia. Note- data of market cap of countries below 1% may be lagged

# /// US Indexes tops in terms of US\$ returns for 4 out of 6 quinquennium ///

Rank	1995-2000	2000-2005	2005-2010	2010-2015	2015-2020	2020-2025
1	NASDAQ 100	Nifty 50	Shanghai Composite	NASDAQ 100	NASDAQ 100	NASDAQ 100
	DAX	TSX	Nifty 50	DAX	Shanghai Composite	DAX
	Stoxx 600	DAX	Kospi	Nifty 50	Nikkei 225	Nifty 50
	CAC	CAC	TSX	Shanghai Composite	Nifty 50	TSX
